

# Timothy Awogbuyi

## Frontend Developer

1+ year experienced front-end developer specializing in building responsive and scalable websites for SMBs. Worked in 8-12 member teams to boost efficiency and deliver exceptional results.

### WORK EXPERIENCE

#### Front-end Developer

January 2023 - Present

FLIP Digital Technologies, Ibadan, Nigeria (Fulltime, Remote)

- Worked together in a team of 4, to build a website tool to enable users exchange gift cards and make transactions.
- Improved website SEO to get listed on the first page and within the top 2 results on google.
- Implemented more than 10 new features to the website and made highly responsive for both web and mobile devices.

#### Front-end Developer

September 2022 - Present

Dimension11 Studios, Lagos, Nigeria (Freelance, Remote)

- Optimized codebase by consolidating repetitive segments, improving the development team efficiency by 25%.
- Expertly implemented vital frontend modifications to 8 website sections per organization's requirements..
- Resolved 4 layout errors on the website frontend, resulting in a 10% improvement in user experience.

#### Front-end Developer

November 2022 - February 2023

JAM-Forte Technologies, Abuja, Nigeria (Fulltime, Remote)

- Joined a team of 2, a backend developer, and a blockchain developer, to build a trading website.
- Built 2 fully functional, responsive and user friendly dashboard for users and the admin.
- Used meta tags to increase the website SEO, and ranked the website within the top 2 results on google.
- Implemented over 20 features on the project while working with tight deadlines.

#### Front-end/UI Developer

April 2022 - September 2022

BivestCoin, Ibadan, Nigeria (Contract, Remote)

- Collaborated with one backend developer and one blockchain developer to build a trading website for crypto trading.
- Refactored codes for over 15 features and developed the website UI to look fresher and improved responsiveness to 95%.
- Collaborated with the team to identify frontend requirements, resulting in a 12% increase in user engagement via cost-effective solutions.
